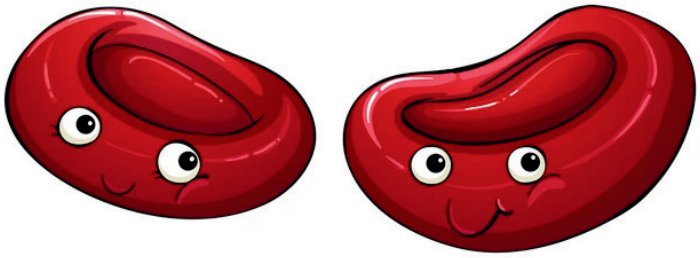
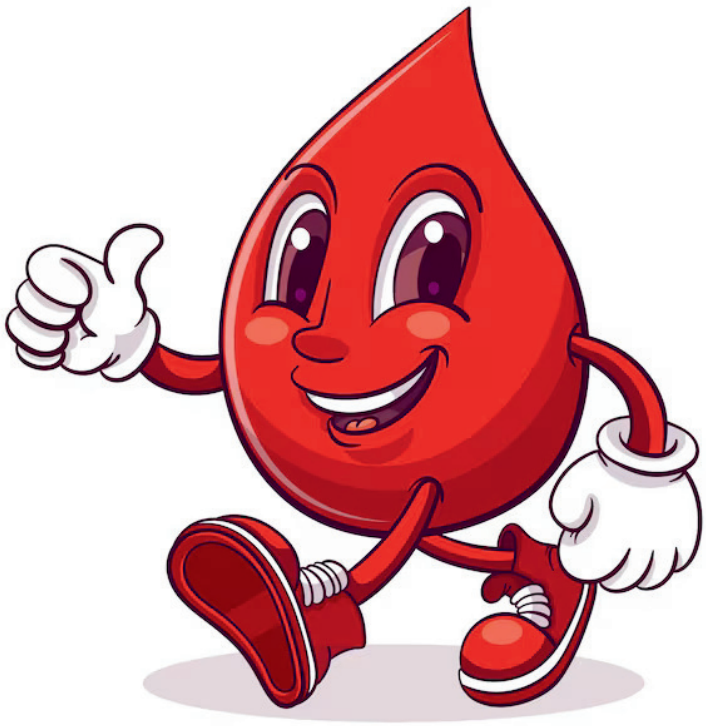
LABORATORY Lowdown

Volume 2, Issue 1

DID YOU KNOW?

Red bloods cells live for about 120 days and are produced at a rate of 4-5 billion per hour.





Lab Updates and Reminders

- Horizon Laboratory now has a **BRAND NEW** Patient Service Center in Timnath, CO! Conveniently located to service Fort Collins and Timnath!
- Horizon has **TWO patient-pay options** that offer sizeable discounts for patients with no insurance, high deductible plans, or Medicare limitations!
- Urine specimens should always be transferred to a yellow top, 10 mL transport tube before being couriered to the lab.
